

MCON STEEL ARP

POLYMER BASED ZINC RICH ANTI CORROSIVE COATING FOR STEEL RE BARS

Product Description :-

MCON STEEL ARP is a single part zinc rich primer, which can be applied on a steel or galvanized or concrete surface to protect the surface from weathering & chemical resistance. Metallic Zinc imparts cathodic protection to the base metal. It resists photo degradation by UV light as it contains UV absorber. MCON STEEL ARP has high zinc content to provide steel with protection of undercoating.

Features & Benefits :-

- The product conforms to the compositional requirements of SSPC paint 20, level 2 and ISO. 12944/ISO 20340 and the zinc pigments comply with ASTM D520 type II zinc dust.
- New binder technology shows superior performance in adhesion/cohesion.
- High zinc content for the best of anti corrosion properties.

Areas of Application :-

Reinforcement Bars

Bridges

Steel-Pipeline

Structures

Technical Details :-

Colour	Greyish (after dry - black)
Drying Time	Surface dry in 30 to 60 minutes
Dry Film Thickness	150 microns per coat
Basic Binder	Acrylic Polymer
Gloss	Low

ANTI CORROSIVE SYSTEM

ANTI CORROSIVE SYSTEM

MCON STEEL ARP

POLYMER BASED ZINC RICH ANTI CORROSIVE
COATING FOR STEEL RE BARS

Easy To Apply :-

Surface Preparation :-

- Remove oil, grease and other contaminants using proper degreasing agent.
- Apply MCON STEEL RC so as to remove excess rust and solidify the rust on the body.
- For severe corrosive conditions blast clean the surface. Special care must be taken on weld areas to remove flux & spatter.
- The cleaned surface should be coated before it gets contaminated.
- Stir the contents thoroughly to get uniform consistency.
- Stir again before application & occasionally during use to prevent setting of metallic zinc.
- For Brush Roller , Airless spray application, no thinning is required.
- In conventional spraying, 5 % to 10 % thinning is recommended for ease of application.

Coverage :-

40-50 Sq.ft Per Ltr

Packing :-

1,5 & 20 Ltr

Shelf Life :-

- Please store away from direct sunlight. 12 months from date of manufacturer.

An ISO 9001 : 2015 - An ISO 14001 : 2015 - AN BS OHSAS 45001 : 2018
